

Referring as a collaborative process:
learning to ground language through language games

Dominik Hinkel and Simon DeBorja

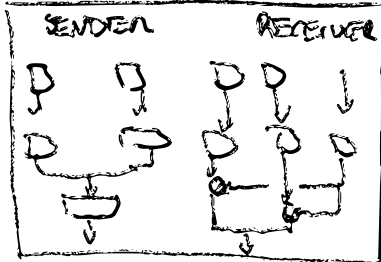

DATASET

- GRE algorithm
- shape, size, colour
- bounding boxes

DATE-2

DATE-5

LANGUAGE GAMES

- sender, receiver
- receive same input in different order
- NLL - loss
- loss calculated after each step and summed

RESULTS

- adjusted variables
- embedding/hidden size dependent on vocab size
- small vocab size enough
- Date-2 much better than Date-5
